SECTION 2: Voter Approval Tax Rate

The voter-approval tax rate is the highest tax rate that a taxing unit may adopt without holding an election to seek voter approval of the rate. Most school districts calculate a voter-approval tax rate that is split into three separate rates. ^{18 Tex. Tax Code §26.08(n)}

- 1. Maximum Compressed Tax Rate (MCR):** A district's maximum compressed tax rate is defined as the tax rate for the current tax year per \$100 of valuation of taxable property at which the district must levy a maintenance and operations tax to receive the full amount of the tier one allotment. ^{19 Tex. Edu. Code §48.2551(a)(3)}
- 2. Enrichment Tax Rate (DTR):** ^{20 Tex. Tax Code §26.08(j) and Tex. Edu. Code §45.0032} A district's enrichment tax rate is defined as any tax effort in excess of the district's MCR and less than \$0.17. The enrichment tax rate is divided into 'golden pennies' and the 'copper pennies.' School districts can claim up to 8 'golden pennies,' not subject to compression, and 9 'copper pennies' which are subject to compression with any increases in the guaranteed yield. ^{21 Tex. Edu. Code §§48.202(a-1)(2) and 48.202(f)}
- 3. Debt Rate:** The debt rate includes the debt service necessary to pay the school district's debt payments in the coming year. This rate accounts for principal and interest on bonds and other debt secured by property tax revenue. The MCR and DTR added together make up the school district's maintenance and operations (M&O) tax rate. Districts cannot increase the district's M&O tax rate to create a surplus in M&O tax revenue for the purpose of paying the district's debt service. ^{22 Tex. Edu. Code §45.0021(a)} A school district may adopt a M&O tax rate that exceeds the MCR in order to maintain the 2020-2021 school year basic allotment if it meets certain requirements and receives approval from TEA. Refer to Education Code, Section 48.2553 for more information. A district must complete an efficiency audit before seeking voter approval to adopt a M&O tax rate higher than the calculated M&O tax rate, hold an open meeting to discuss the results of the audit, and post the results of the audit on the district's website 30 days prior to the election. ^{23 Tex. Edu. Code §11.184(b)} Additionally, a school district located in an area declared a disaster by the governor may adopt a M&O tax rate higher than the calculated M&O tax rate during the two-year period following the date of the declaration without conducting an efficiency audit. ^{24 Tex. Edu. Code §11.184(b-1)} Districts should review information from TEA when calculating their voter-approval rate.

SECTION 3: Voter Approval Rate Adjustment for Pollution Control

A school district may raise its rate for M&O funds used to pay for a facility, device or method for the control of air, water or land pollution. This includes any land, structure, building, installation, excavation, machinery, equipment or device that is used, constructed, acquired or installed wholly or partly to meet or exceed pollution control requirements. The school district's expenses are those necessary to meet the requirements of a permit issued by the Texas Commission on Environmental Quality (TCEQ). The school district must provide the tax assessor with a copy of the TCEQ letter of determination that states the portion of the cost of the installation for pollution control.
This section should only be completed by a school district that uses M&O funds to pay for a facility, device or method for the control of air, water or land pollution.
