**A RESOLUTION
URGING CONGRESS TO EXTEND THE
PRODUCTION TAX CREDIT FOR WIND ENERGY**

Whereas wind energy is a cost-effective and proven form of renewable energy, and

Whereas West Texas provides more than 25% of the nation's wind energy production, and

Whereas the rapidly expanding West Texas wind energy industry provides substantial job creation and tax base growth for West Texas, and

Whereas in 2005 Congress renewed the Wind Energy Production Tax Credit which has provided a national-level stimulus to the wind energy industry, benefiting states all across the nation, and

Whereas the Production Tax Credit for Wind Energy expires in December 2007, and

Whereas a longer term renewal of the PTC is needed to provide a stable financial environment that would allow the wind energy industry to continue to mature in the U.S. through development of a comprehensive heavy industrial sector constructing wind energy components and through development of substantially greater numbers of wind projects to promote America's energy independence, strengthen our commitment to renewable energy and to improve regional economies.

Therefore, be it resolved that the Commissioners' Court of Tom Green County urges Congress to extend the Production Tax Credit for Wind Energy for another 10 years to encourage the continued development of wind energy, stimulate private-sector investment and further the growth of this vital renewable energy resource for America.
